What happened after "A Christmas Carol"? This new musical answers that question.

One year later, Scrooge's life takes a turn for the romantic—new ghosts (and old pal Jacob Marley) arrive to help him find his lost love, Belle. This new Christmas musical was produced for the first time in 2015 in San Francisco. Our production will be only the third time this wonderful show has been brought to the stage! It's the perfect holiday show for the whole family!
